What a find! This lovely property, nestled in a bucolic setting less than a mile from beautiful Silver Lake, offers the kind of high-quality construction and hand-crafted architectural details that are often sought, but seldom found. This warm, inviting home, fully upgraded with modern conveniences and maintained in excellent condition, embraces you with the character and charm of its every room. You'll be delighted by the updated kitchen, which boasts top of the line stainless steel appliances and over-sized custom double copper sink, high-end cabinetry, adjoining formal dining room, and your very own spa-like bathroom with soaking copper tub. This property is a gardener's dream, complete with mature herb garden, 22' by 60' geothermal greenhouse, garden shed, and 2 non-certified organic gardens. Horse lovers have a ready-made home for their friends in a 35' x 29' barn equipped with 4 horse stalls, hay loft, and a delightful riding trail through the forests behind the house and barn. No horses? how about a tandem 2 car garage. This property sits on 75 acres with the possibility of subdividing.
